

LUCAS 1 ½" AZ IMPORT ROOF BALLAST PRODUCT DATA SHEET

GENERAL DESCRIPTION:

Lucas 1 ½" AZ Import Roof Ballast is a red – brown colored, very smooth, naturally rounded aggregate.

BASIC USE:

Lucas 1 ½" AZ Import Roof Ballast is used as a roof ballast on single ply type systems on the field, and for roofscape decorative purpose.

Many architects and manufacturers specify this 1 ½" AZ Import for it's exceptional smoothness and designer properties.

This ballast conforms to the requirements of either ASTM size #4, Size #3 or Size #5.

Coverage per 100 square feet = 1,200 LBS

Available in 80 LB sacks, 3,000 LB super-sacks and bulk end dump.

Product shall be submitted and approved before shipping.

Note: Beware of 7/8 cu/ft ballast sacks now in this market. If assuming they are 80 LB bags, you may be shorted up to 20%. All codes and membrane manufacturer requirements specify application a designated pounds per square foot. None recognize volume. Shortage in ballast application will result in reduced wind uplift performance, void fire rating and warranties.
